UK students

Please ensure if you are new to the area, you register with a local doctor's surgery as soon as possible rather than wait until you become ill.

EEA and Swiss nationals

You should have applied for a European Health Insurance Card (EHIC) prior to arrival here in the UK; this entitles you to full NHS treatment. For more information, please contact Academic Services. Please consider the implications of Brexit in the case that it comes into effect. You may wish to check the webpage <https://www.gov.uk/brexit> and take advice.

International students

You will need to register with a doctor on your arrival in the UK. You will hear people referring to this doctor as your GP (General Practitioner). Our **Welfare Officer** will help you to do this. Except in the case of an emergency, you should always see your GP first for your medical issues. However, you

will need to pay for medical prescriptions, vaccinations, dental and optical treatment.

Once registered with a doctor, you can also call **111** for 24-hour professional medical advice. For medical emergencies which need immediate treatment, you should visit the nearest hospital with an Accident & Emergency (A&E) ward. If the condition is so severe that you cannot travel to the hospital by yourself, then phone **999** to call an ambulance to assist you.

The NHS is the UK National Health Service. If you need to see a doctor or dentist while in London, speak to the **Welfare Officer**, who will help with your enquiry. We have a First Aid Box at the Academy. You will need to pay to see a dentist or optician. - (Following the written Entry Test) are invited for an interview which serves as both a need analysis questionnaire designed to identify their employment goals, academic and development needs, and an English Speaking and Listening skill test to ascertain their English Language level along with the written test.

Admissions via alternative criteria (BTEC Programmes)

The term 'alternative assessment' is applied to applicants seeking admission who hold qualifications which do not satisfy benchmark entry requirements or programme-specific entry requirements. BTEC Higher Nationals in Hospitality Management (HM)

Programme Design

The HNC/HND courses are HE courses. HE means that it is a Higher Education programme equivalent to levels 4 and above. This means that a high standard of academic work is required to complete the course. These qualifications have been accredited to the Regulated Qualifications Framework (RQF).

The Regulated Qualifications Framework (RQF) Code is known as a Qualification Number (QN). Each unit within a qualification will also have a unit code. The qualification and unit codes will appear on learners' final certification documentation.

The QNs for the qualifications in this publication are:

- Pearson BTEC Level 4 HNC Certificate in Hospitality Management (RQF) 603/2279/2
- Pearson BTEC Level 5 HND Diploma in Hospitality Management (RQF) 603/2278/0

Rationale

Pearson BTEC Higher Nationals are designed to provide a specialist vocational programme, linked to professional body requirements and National Occupational Standards where appropriate. They offer a strong, sector-related emphasis on practical skills development alongside the development of requisite knowledge and understanding. The qualifications provide a thorough grounding in the key concepts and practical skills required in Hospitality Management, and their national recognition by employers allows direct progression to employment.

Pearson BTEC Level 4 HNC (Higher National Certificate) and Level 5 HND (Higher National Diploma) in Hospitality Management **have been developed to provide:**

- a broad introduction to business studies linked to professional body requirements and occupational sectors,
- a qualification, which is recognised internationally by employers and education providers,
- a thorough grounding (education and training) in the key concepts and practical skills required for a range of careers, or to advance a career, in Hospitality businesses as a manager,
- opportunities for learners to develop a range of techniques, attributes, knowledge, and expertise which enhance personal and professional development, fulfilment, and employability essential for successful performance in working life within the Hospitality industry.
- opportunities for managers to follow specialized areas of study directly relevant to individual vocations and professions within the Hospitality industry, including study within the licensed trade, leisure and/or tourism sectors, or specialist culinary arts, leading to a nationally recognized Level 5 vocationally specific qualification,
- opportunities for full-time learners to progress on to a full-time degree in Hospitality management or related areas such as business management or International Travel and Tourism management,
- opportunities for learners to focus on the development of higher-level skills in a Hospitality Management context, including investigatory and research skills focusing on management issues within the context of International Travel, Hospitality/leisure or Tourism.

The Pearson BTEC HNC and HND in Hospitality Management, offers a **progression path** to:

- the second or third year of a degree or honours degree programme in various HM-related university courses, depending on the match of the Pearson BTEC Higher National units to the degree programme in question.
- vocational courses with professional qualifications offered by various professional bodies in the business sector.
- a range of management positions in business in general with potential starting salary of £30,000 or more.
- self-employment and new business enterprises.

The course is the ideal place to begin higher level studies in Hospitality Management and is for students who wish to have a qualification in Hospitality Management and a passion for playing a management and leadership role.

Validating Body

Pearson BTEC is the awarding body which is responsible for ensuring that qualifications are awarded on completion of an approved programme of study, and that standards and quality of the course are maintained. Pearson has a great deal of experience of managing awards in business at a range of levels from level 1 through to level 5 and management level 5 to level 7.

Pearson BTEC Level 4 HNC in Hospitality Management

Pearson BTEC Level 4 HNCs provide a nationally recognised qualification offering career progression and professional development for those already in employment and opportunities to progress into higher education. The qualifications are mode free, but they are primarily undertaken by part-time learners studying over two years. In some sectors there are opportunities for those wishing to complete an intensive programme of study in a shorter period of time. This specification gives centres a framework to develop engaging programmes for higher education learners who are clear about the area of employment that they wish to enter.

The Pearson BTEC Level 4 HNC in Hospitality Management offers a progression route for learners who are employed in the Hospitality sector. Learners studying the Pearson BTEC Level 4 HNC will be able to progress onto the Level 5 HND in Hospitality Management then allows progression to degrees in Hospitality Management subjects.

Pearson BTEC Level 5 HND in Hospitality Management

The Pearson BTEC Level 5 HND provides greater breadth and specialisation than the Pearson BTEC Level 4 HNC. Pearson BTEC HNDs are mode free but are followed predominately by full-time learners. They allow progression into or within employment in the hospitality sector, either directly on achievement of the award or following further study to degree level.

The Pearson BTEC Level 5 HND in Hospitality Management provides opportunities for learners to apply their knowledge and practical skills in the workplace. Full-time learners have the opportunity to do this through formal work placements or part-time employment experience.

The qualification prepares learners for employment in the hospitality sector and will be suitable for learners who have already decided that they wish to enter this area of work. Some adult learners may wish to make the commitment required by this qualification in order to enter a specialist area of employment in business or progress into higher education. Other learners may want to extend the specialism that they followed on the Pearson BTEC Level 4 HNC programme.

Progression from this qualification may well be into or within employment in the hospitality sector where learners may work towards membership of a professional body. The Pearson BTEC Level 5 HND in Hospitality Management offers a progression route for learners who are studying on a Pearson BTEC Level 4 HNC in (ITTM).

Learners studying the Pearson BTEC Level 5 HND will be able to progress to a degree in (HM) or one of its specialist areas. The qualification also prepares learners for employment in the business sector. Some learners may wish to use this qualification in order to enter a specialist area of employment in the sector, where learners may work towards professional membership or study for professional body examinations.

Course Structure

Teaching & Learning

“Teaching” is taken to apply to all the ways in which the Academy delivers curriculum to its learners and may include a range of both face-to-face and online methods of delivery. “Learning” is taken to refer both to student learning and also to learning on the part of teaching specialists.

The Academy takes all appropriate measures to ensure that effective and student-centred teaching is delivered, teaching delivery methods are varied and designed to encourage student engagement and content is related to real world examples. In addition, varied learning opportunities, which foster and encourage independent learning, are provided. In the event of Covid-19 lockdown, the Academy takes all appropriate measures to ensure that delivery continues online where possible.

Teaching methods include lectures with readings, exercises and homework with use of slides, websites and videos. Sessions are highly interactive with communicative group tasks and work-based activities. Student performance is given ongoing formative assessment with feedback. Students are required to do additional reading.

Each of the HNC and HND programmes separately:

- requires 480 Guided learning hours (in-class / face-to-face sessions, seminars, tutorials and work-based practical experience) and extra 720 Independent Study hours,
- is delivered in three terms (Autumn, Spring, Summer), each of which is 10 weeks.

Learners:

- study two days a week (Mondays and Tuesdays as Weekday Classes or Saturday and Sundays as Weekend Classes) and 6 hours a day.
- cover 120 or 180 Guided learning hours and extra 180 or 270 Independent Study hours depending on the number of units they take at each of the three terms.

Unit format (Title, RQF Level, Credit Value)

The units in Pearson BTEC Higher National qualifications all have a standard format which is designed to provide guidance on the requirements of the qualification for learners, assessors and those responsible for monitoring national standards.

The unit title is accredited on the RQF and this form of words will appear on the learner's Notification of Performance. All units and qualifications within the RQF will have a level assigned to them indicating the relative intellectual demand, complexity and depth of study, and learner autonomy, thus represents the level of achievement. There are nine levels of achievement, from Entry level-to-level 8. The level of unit has been informed by the RQF level descriptors and, where appropriate, the National Occupational Standards (NOS) and/or other sector/professional benchmarks.

Each unit in Pearson BTEC Higher National qualifications has a credit value which specifies the number of credits that will be awarded to a learner who has achieved all the learning outcomes of the unit. Learners will be awarded credits for the successful completion of whole units.

Aim

The aim provides a clear summary of the purpose of the unit and is a succinct statement that summarises the learning outcomes of the unit. The Academic Head is currently responsible of monitoring each unit/module.

Unit abstract

The unit abstract gives the reader an appreciation of the unit in the vocational setting of the qualification, as well as highlighting the focus of the unit. It gives the reader a snapshot of the unit and the key knowledge, skills and understanding gained while studying the unit. The unit abstract also highlights any links to the appropriate vocational sector by describing how the unit relates to that sector.

Unit content

The unit content identifies the breadth of knowledge, skills and understanding needed to design and deliver a programme of learning to achieve each of the learning outcomes. This is informed by the underpinning knowledge and understanding requirements of relevant National Occupational Standards (NOS) where appropriate.

Each learning outcome is stated in full and then the key phrases or concepts related to that learning outcome are listed in italics followed by the subsequent range of related topics.

Learning outcomes

Each unit contains learning outcomes which identify what each learner must do in order to pass the unit. Learning outcomes state exactly what a learner should 'know, understand or be able to do' as a result of completing the unit.

In most units there are four Learning Outcomes, but there may be three or five. Typically, each Learning Outcome asks you to understand a key aspect of the module. For each Learning Outcome there is also Assessment Criteria. These indicate what evidence you need to provide in order to demonstrate that you have been able to achieve the Learning Outcomes. They always begin with an operative or command verb such as assess, evaluate, describe or analyse, which tell you exactly what you need to do to pass. So, please be sure you have understood what you are asked to do for each criterion.

Assessment Strategy

“Assessment” is taken to apply to all the ways in which the Academy appraises a student’s knowledge, understanding, abilities or skills and also provides supportive feedback to improve student performance.

Formative assessment

Formative assessment involves both the tutor and the student and takes place prior to the summative assessment. It does not have a grade awarded to it but focuses on helping the student to reflect on their learning and improve their performance. The main function of formative assessment is to provide feedback that is constructive and provides clear guidance and actions for improvement. Students submit the formative assessment through Turnitin, where possible.

Summative assessment

The purpose of assessment is to ensure that effective learning of the content in each unit of the HNC/D programme has taken place. Evidence of learning and the ability to apply it to work-based contexts are required for each unit. Learners produce evidence in response to a written assignment brief, which provides a work-based scenario with instructions on the tasks that need to be completed. Learners may be given the opportunity to receive feedback on their performance in formative tasks as well as receiving assignment briefs, which are usually handed out in the second week of each term.

The assessment of Pearson BTEC Higher National qualifications is criterion-referenced, so Docklands Academy London assesses learners’ evidence against published learning outcomes and pass criteria. All units are individually graded as ‘pass’, ‘merit’ or ‘distinction’. To achieve a pass grade for the unit, learners must meet the assessment criteria set out in the specifications. This gives transparency to the assessment process and provides for the establishment of national standards for each qualification.

The units in BTEC higher national qualifications all have a standard format, which is designed to provide guidance on the requirements of the qualification for learner’s assessors and those responsible for monitoring the national standards.

Assessment instruments

Assessment instruments are designed by Docklands Academy London, and these should collectively ensure coverage of all assessment criteria within each unit and should provide opportunities for the evidencing of all the grade descriptors.

Our assessors are encouraged to place emphasis on practical application of the assessment criteria, providing a realistic scenario for learners to adopt, making maximum use of work-related practical experience and reflecting typical practice in the sector concerned. Our assessors are also trained to clearly indicate assessment criteria and contextualized grade descriptors on each assessment instrument to provide a focus for learners (for transparency and to ensure that feedback is specific to the criteria) and to assist with internal standardization processes. Tasks/activities are designed to enable learners to produce evidence that relates directly to the assessment criteria and grade descriptors.

Each assessment instrument is moderated by Docklands Academy London via internal verification process to ensure that the instruments are valid, reliable and fit for purpose, building on the application of the assessment criteria. The creation of assessment instruments that are fit for purpose is vital to achievement and their importance cannot be over-emphasized.

The evidence which learners are required to provide for their assignments can take different forms depending upon the instructions they are given in the assignment briefs. The assignments can involve a variety of tasks including:

- written reports,
- oral presentations,
- recorded professional discussions,
- observations of learners carrying out practical tasks such as running an actual project or an event,

- work-based projects and/or observations,
- creation of financial documents,
- academic posters.
- For some units involving accounting written examinations may be required.

The Academy aims to include as much evidence as possible in a variety of forms including a good selection of creative and practical tasks. In particular, the Academy creates assignments for assessment purposes which require learners to carry out real life tasks which are relevant to their interests and learning outcomes. Assessment includes hands-on activities in collaboration with others as well as independent tasks. This strategy is intended to ensure that learners are fully engaged in original, rewarding and interactive tasks, whilst also developing hard and soft transferable skills that are directly applicable to a realistic business context.

Submission of assessed work

All students should electronically submit all work for assessment before or by the deadline on the Academy's the Virtual Learning Environment (VLE) stipulated unless a request for deferred assessment or serious adverse circumstances has been requested and agreed.

Your completed assignment must be submitted through Turnitin on the VLE, which is an internet-based system which allows you to see the degree to which you are appropriately acknowledging your sources of ideas. Turnitin checks for potential unoriginal content by comparing submitted assignments to databases.

The VLE will not allow you submit the assignment past the deadline. You should speak with your tutor if you are having problems attending or submitting an assignment as the Academy has a policy for extenuating circumstances. The Head of Academic Administration will support you in making an application to make a late submission or defer assessment if your personal circumstances allow it.

Assignments must be accompanied by an Assignment Front Sheet which you have signed and dated. Front sheets are available for each Unit on the Virtual Learning Environment (VLE). It is essential that students keep an electronic copy of all assignments handed in for marking.

All students must obey the assignment submission and resubmission deadlines. Should an item of assessed work not be submitted or be submitted late without valid mitigating circumstances, a mark/grade of zero (Referral) will be recorded for that item. Students who are unable to pass in their first submission are given an opportunity to resubmit after receiving feedback. Resubmissions may only be awarded a pass and are not eligible for merit or distinction. All students are entitled to one re-submission opportunity if the work they initially submit is judged to have failed. However, if the initial work is not covered by extenuating circumstances, and you submit work for the module for a second attempt (called a referral) the maximum mark that can be awarded for re-submission is the threshold pass mark; i.e. 40% grade point 4 for levels 4 and 5. If the re-submitted failed work or non-submission is covered by successful extenuating circumstances, claim then the re-submitted work is considered 'as if for the first time' and can receive its full awarded mark.

Presentation

Students are expected to present work in a readable format, usually word-processed. Guidance on how the text should be formatted and presented is given in the assessment brief. You must word process any final written assignment, using size 12 font and submit it in word format. Assignments should be proofread prior to submission and spelling, grammar and punctuation checked. Work with consistently poor spelling, grammar or punctuation will not be accepted for marking but returned to the student for these errors to be corrected.

Referencing

Referencing guidelines (Harvard) must be followed when assignments are written.

- the list of references at the end of an assignment should only include items that have been directly referred to in the text.
- the source should be attributed in a reference when another person's work has been paraphrased or used in a direct quotation. Accidental plagiarism can happen when notes are taken and used from a book or article without clearly heading those notes with the title and author.

Cheating, Plagiarism and Collusion

Plagiarism is the explicit or passive copying from another's work. It is a serious offence and may lead to an irretrievable failure of the assessment. It can be avoided by ensuring that sections of another's work that are paraphrased or quoted are properly understood and referenced. Plagiarism does not solely involve copying word for word; it can also be copying and changing a word or two here and there or re-ordering the source material and omitting or adding sections. Collusion involves students using each other's work when they should be working independently. Suspected plagiarism will be followed up by the college intervention policy.

Ethics guidelines

Students should be familiar with the ethical issues surrounding primary research before they plan a research-based or case study assignment, especially if it involves gathering data from their workplace or interviewing colleagues, students, etc. Primary research should not be undertaken with children under the age of 18 years or vulnerable adults. All ethical protocols must be adhered to when carrying out primary research.

Marking and Assessment Result Delivery

Students' work will be marked in accordance with current HNC/HND marking guidelines. The general criteria for the assessment of work will be used throughout, and the most up to date version can be found on the Course site on the VLE. Assignment-specific criteria will be set where necessary.

- Students' works are marked in accordance with current HNC/HND marking guidelines within 15 (working) days of the hand-in date.
- Before they are announced to learners, to ensure that the standards of assessment are fair and consistent:
 - first samples of assessed work for each unit are checked by an internal verifier, which may lead to changes to grades awarded.
 - then all summative assessment grades go through Assessment Committee.
- All grades are considered provisional until agreed by the Assessment Committee.
- Assessment decisions are provided to each learner verbally and/or in written feedback, indicating how the learner has, or has not met the criteria of a pass, merit or distinction.

The grades awarded by the Academy are also checked through the external standards verification process implemented by the awarding body.

- another group of samples of the work are checked by a Pearson External Examiner.
- Assessment Board which is held at regular intervals throughout the year at the Academy performs final checks.
- All certificate/diploma decisions are considered provisional until approved by the External Examiner.

Students are given the opportunity to appeal against the assessment decisions through the Academy, Office for Independent Adjudicator (OIA) or the Pearson appeals procedures.

Grading Higher National units

The assessment of BTEC Higher National qualifications will be at unit level and there will be no overall grade for either the Certificate or the Diploma. This means that learners are able to access the qualification through a unitised approach. Each unit is assessed internally by an Academy assessor according to three levels of achievement:

a " PASS " indicates that the work produced is an adequate demonstration that effective learning has taken place.	In order to achieve a pass in a unit, all learning outcomes against the specified (associated) assessment criteria must be met
a " MERIT " indicates that the work is more than adequate.	In order to achieve a merit in a unit, pass requirements must be met and also all merit grade descriptors must be achieved.
a " DISTINCTION " indicates that the work is of a very high standard.	In order to achieve a distinction in a unit, pass and merit requirements must be met and also all distinction grade descriptors must be achieved.

Level (Qualification) Achievement Credit Value

Learners must complete 120 credits on their programme of learning to be awarded a Pearson BTEC Level 4 HNC and a minimum of 240 credits to be awarded a Pearson BTEC Level 5 HND.

Learners must study 8 units at Level 4 and achieve a pass in a minimum of 105 credits (7 units) to be awarded a BTEC Level 4 HNC and another eight units or equivalent at Level 5 and achieve a pass in a minimum of 105 credits (7 units) to be awarded a BTEC Level 5 HND.

- To achieve a **PASS** grade, 4 times 15 credits (60 points) are awarded, therefore, a student requires 420 – 599 points (minimum 7 passes).
- To achieve a **MERIT** grade, 6 times 15 credits (90 points) are awarded, therefore a student requires 600-839 points (minimum 4 merits and four passes)
- To achieve a **DISTICTION** grade, 8 times 15 credits (120 points) are awarded, therefore a student requires 840 + (minimum 4 distinctions and 4 merits).

To ensure that the standards of all the assessments, thus related programme achievement (HNC or HND) are fair and consistent:

- first samples of assessed work for each unit are checked by an internal verifier.
- then all summative assessment grades go through Assessment Committee
- then Assessment Board which is held at regular intervals throughout the year at the Academy performs final checks,
- another group of samples of the work are checked again by a Pearson External Examiner for final verification,
- All certificate/diploma decisions are considered provisional until approved by the External Examiner.

Attendance

Students should expect to devote at least 30 hours per week to their studies; 150 hours for a 15-credit unit in total and 200 hours for a 20-credit unit in total. This time will include attending timetabled sessions, private study, background reading, completing assignments; time spent discussing issues with other students and using online materials such as eBooks and journals.

The Academy requires students to attend all classes punctually according to their signed Learning Agreement and course timetable. Students should not knowingly miss a class for anything other than illness or exceptional circumstances. It is not advisable to take holiday in term time. If students need to miss a class, they, or someone acting on their behalf should:

- inform their administration/compliance department *immediately* and/or also the member of staff who takes the class, where possible in advance, of any planned absence (eg. for a doctor's or dentist's appointment) and obtain prior permission which is authenticated with an Absence Authorization Notification Note or Self-Certification communication (by means of a telephone call, email and etc.) where medical note is not available from a hospital.
- telephone the Academy reception desk before 9.15 am on the first day of an unplanned absence to provide an explanation. Students will be asked for personal details and for how long they expect to be absent and in the case of international students will be informed of the need to obtain medical evidence in the form of a GP note or hospital letter
- obtain a letter from their parent (or guardian if they are under 18) for any illness lasting more than one week
- on return to the Academy following an absence lasting
 - less than one week, UK and EU students will need to complete a Self-Certification communication
 - more than one week, they need to provide a doctor's note.
 - any period of absence, attend a "return to Academy interview" with Head of Academic Administration.
- make arrangements to catch up with any course work missed during absence with relevant lecturer.

Actions Against Poor Attendance

Students may be denied access to classes if they are more than 15 minutes late, unless there are good reasons. The same rule applies for online sessions at distance learning. Students may be required to wait until the class lecturer signals the student may enter the room (or online session on the platform used) at a point which does not disrupt learning for other students.

Thereafter for any unauthorised attendance from the start of term the following procedures will be followed for each term: (Each Session is 3 hrs)

Warning 1: > 10% unauthorised absence = 2 days (4 sessions / 12 hrs) from the start of term

Warning 2: > 15% unauthorised absence = 3 days (6 sessions / 18 hrs) from the start of term

Final Warning: > 20% unauthorised absence = 4 days (8 sessions / 24 hrs) from the start of term

If a student's attendance is less than 90% without good reason, the Academy may give the student the first formal warning in writing. If the student's attendance falls below 85% on the second time without good reason, the student may receive a second warning letter. If the student's attendance falls below 80% for a third time, the student will receive a final written warning. The Academy will only issue two warning letters and one final warning letter in any one academic term. If a student's attendance remains inadequate, the Academy may take the decision to withdraw or defer the student from the programme.

Students must have a minimum in-class attendance rate of 80% in order to meet the requirements of their courses. Failure to adhere to the attendance requirements:

- will lead to failure in the course
- may result in:
 - exclusion from the programme or being withdrawn following formal interview at the discretion of the Academy.
 - expulsion for international students where they will be reported to UKVI. We are required to inform the UKVI if you are frequently absent and do not provide a doctor's certificate or other acceptable reason. This may affect your visa status.

We can only authorise absence from classes with a signed English medical note or valid dated letters and/or appointment details.

Students should attend classes. Missing your class means wasting your money and missing a great learning opportunity. If you fail to attend to a sufficient level, you will receive warning letters and if you continue missing classes, you may be withdrawn from the programme. Student loans for Higher Education students may be affected if your attendance is too low. If you are absent due to illness more than seven days, you should provide a doctor's note.

Please try to arrive on time for your lesson. You will not be able to enter the classroom more than 15 minutes late and accepted as absent. If you have any questions or are unhappy about anything, please tell your teacher or you can speak to any other member of staff you like, and they will do their best to help you. You may also use our **online feedback form** if you prefer:

How to Appeal

Introduction to appeals

If you feel that an assessment decision is unfair or inaccurate, you have the right to appeal. In order to appeal you need to follow the procedures below.

The procedure applies to decisions on assessments made by the Academic and Advisory Committee.

A candidate may not lodge an appeal on the grounds of dissatisfaction with the design, curriculum or delivery (teaching, departmental support, etc.) of a course. The Academy's Complaints procedure (2.5) exists in part to deal with such issues. However, the investigation of a complaint from a student may reveal issues that would have formed grounds for an appeal under the Appeals procedure. When this is the case, a student must not be prevented from exercising the right to appeal subsequent to the findings of the complaints investigation on the grounds of its being 'out of time'. In such instances, the deadlines set out in this procedure must be calculated from the date at which the complainant received the information as an outcome of the complaints investigation that might form the basis of her/his appeal.

The Principal is empowered to refer the matter as an appeal to whichever is the appropriate forum for its consideration. Equally, if a student submits as a complaint, which is wholly or partly an appeal on one of the four grounds, it is an obligation of the Academy to ensure that the issue is considered under the Appeals procedure.

Grounds for appeal

A request for a review of an assessment decision may be made on one or more of the following grounds:

- that a candidate had submitted evidence of mitigating circumstances as specified in Academy documents, but these were not considered by the assessor or the Academic and Advisory Committee.
- that the assessor or the Academic and Advisory Committee was not aware of mitigating circumstances affecting the candidate's performance because the candidate had been unable, or for valid reasons, unwilling, to divulge them before the decision was reached.
- that the assessment procedures were not followed in accordance with the regulations resulting in an error in the candidate's assessment.
- that some other material irregularity had led to a breach of the procedures or regulations resulting in a decision detrimental to the student.

These are the only grounds for appeal. There is no right of appeal against assessment decisions which are matters of academic judgment.

The procedure for appeal

Students may wish to take advice as to whether to appeal or not. A senior Lecturer, the Head of Academic Administration, Student Welfare Officer and Academic Head are all suitable members of staff from whom to obtain advice about how to use the Appeals procedure.

Whatever source of information the student chooses, it is their responsibility to choose whether to appeal, the grounds upon which they do so and the evidence they decide to present.

For assessments dealt with by Academic and Advisory Committee, a student who wishes to appeal against a decision of the Assessment Committee must write to the Head of Academic Administration to invoke the Academic Appeals Procedure within 2 weeks of the date of the letter from the Chair of the Academic and Advisory Committee that provides the student's result.

A request for a review must state the decision concerned, the grounds and be accompanied by documents that are evidence for the case on these grounds.

The Chief Executive Officer shall make an assessment of the validity of the case and decide whether or not it should be put before an Assessment Appeals Panel. The decision to proceed with such a request will only be taken if it has been established that the case is based, prima facie, on additional information about a candidate's personal circumstances or on evidence of procedural irregularity and is not one which challenges the academic judgment of the Assessment Committee or the Academic and Advisory Committee.

This decision should normally be made within 10 working days of receipt from the student and be advised to them in writing.

The function of the Assessment Appeals Panel

The Assessment Appeals Panel will consider appeals against assessment decisions of assessors. The Assessment Appeal Panel reports to the Academic and Advisory Committee.

It will establish whether there is, prima facie, a justified case of appeal and if so to consider whether:

- to uphold the decision of the Academic and Advisory Committee,
- to overturn the decision of the Academic and Advisory Committee,
- to require the Academic and Advisory Committee whose decision has been challenged, to reconsider that decision.

The constitution of the Assessment Appeals Panel

The membership of the Assessment Appeals Panel shall be:

- a senior manager or her/his nominee who has not previously been involved in the assessment decision and is a member of the senior management team,
- any Head of Department who has not previously been involved in the assessment decision,
- a member of teaching staff, not directly concerned with the course/ programme, in which the course and the appellant are based,
- the secretary to the Panel.

Any potential member who has been involved in teaching, assessing, counselling or advising an appellant will be ineligible to serve on the committee hearing the case of that appellant. A quorum of the Assessment Appeals Panel is all three members, plus the Secretary.

Convening of Assessment Appeals Panel

The Secretary shall convene a meeting of the Academic Appeals Panel on the first convenient date, which shall not normally be more than twenty working days after the request has been lodged. Ten working days' notice of any meeting of the Academic Appeals Panel shall be given to the members, the appellant and any other persons being required to attend.

The appellant must be present and may be accompanied by one person of his/her choosing. If the appellant does not appear and the Panel is satisfied that notice of the appeal hearing was duly sent to him/her, the appeal lapses. The Assessment Appeals Panel and/or the appellant may summon to appear any other person(s) whom they may reasonably consider to be material witnesses.

Conduct of Assessment Appeals Panel hearings

Prior to the hearing, all parties to the appeal will have been circulated with written statements setting out the appellant's grounds for appeal and any written statements of those responsible for the assessment decision which is being appealed against.

The Panel will start by hearing an opening statement from the appellant, or the appellant's representative, on the grounds for the appeal. The Chair of the Panel must ensure that witnesses are only questioned about matters germane to the case of the appellant on the grounds permitted by the Procedure. After all witnesses have been heard, the appellant or her/ his representative may make a concluding statement, summarising what has been presented to the Panel.

The Assessment Appeals Panel is not empowered to consider any appeal on grounds other than those lodged by the appellant at time of giving notice of the appeal. The Panel will then deliberate in private and announce its decision publicly to the appellant and the appellant's representative.

The Panel's decision will also be communicated in writing to:

- the appellant
- the appellant's representative (if there is one)
- the Chief Executive Officer
- the Head of Academic Administration
- the Chair of the Academic and Advisory Committee which made or recorded the decision against which the appeal has been made

Decisions of the Assessment Appeals Panel

The Assessment Appeals Panel shall consider the appeal and if it finds that the appellant has established a case, will either overturn the decision of the Academic and Advisory Committee or require the Academic and Advisory Committee whose decision has been challenged, to reconsider that decision.

Where the Assessment Appeals Panel finds that the appellant has not established a case for a review of the decision, it will uphold the Academic and Advisory Committee's decision. There is no further right of appeal within the Academy.

When a decision has been referred back to the Academic and Advisory Committee, it shall reconsider, within three calendar months, the appellant's case, giving due consideration to the comments and recommendations of the Assessment Appeals Panel. The Committee will either confirm their decisions or make such adjustments as in the circumstances they deem just. The Chair of the Academic and Advisory Committee will inform the appellant and take any further necessary action.

In cases of procedural or other irregularity the Appeals Panel has the power to annul a decision of an Academic and Advisory Committee. If an error or irregularity is found to have affected more than one candidate, the Appeals Panel may annul the whole assessment or any part of it. The decision of the Appeals Panel shall be final.

Intermission of Studies / Deferral and Exceptional / Mitigating Circumstances

The Academy recognises that a student in good academic standing may need to take a break from their studies for non-academic reasons. The Academy may permit a student to intermit/defer. However, there is a presumption that students must try to complete their programmes of study by the original end date.

Deferred Assessment (course-unit) Request Procedure

- It is the student's responsibility to demonstrate that there are sufficient grounds to grant permission to intermit/ defer. However, permission will not be granted on more than two occasions, one of which may not immediately succeed another. The duration of a period of intermission/ deferral shall not exceed one academic year at a time within a single period of registration, with no less than one semester and no more than two semesters requested.
- Requests for intermission/ deferral must be made in writing to the Head of Administration. The request must include a reason for the intermission/ deferral and the intended date of return to the programme of study, together with any relevant supporting documentation.
- It should be submitted for consideration no less than six weeks before the effective date and be presented to the next Academic and Advisory Committee.
- Deferred Assessment will not be allowed in any circumstances where prior planning could have made it unnecessary
- Deferred Assessment shall normally be in the same format as the missed examination (ie. if the examination was by unseen written paper, the deferred assessment should also be by unseen written paper). Where this is not possible, an explanatory statement should be submitted with the application form
- Deferred Assessment on non-medical grounds is only permissible on the following grounds: (a) Bereavement of a close relative (during or immediately preceding the relevant examination) e.g. parent, partner, sibling, or grandparent; (b) Illness of dependents (nature of dependency and medical certification must be provided)
- Straightforward deferred assessment applications can be approved at Faculty level. A log of cases should be kept for quality assurance purposes.

- Applications for the following type of complex deferred assessment cases will be sent to the Academic Head for approval:
 - All non-medical cases
 - “Weak” medical certificates
 - Medical cases with no certification, self-certification, retrospective certification and certification from any non- recognised practitioner
 - Cases that could have been foreseen by the student and therefore planned for in advance
 - All cases where the proposed method of assessment differs from the original assessment that was missed
 - Any other case on which the Faculty Tutors would like to seek further advice

Mitigating Circumstances Claim Procedure

Further, the Academy recognises and accepts that in rare instances, student performance will be affected by circumstances beyond their control. This may, for example, include a sudden or long-term illness that has prevented or impeded the assessment of student work through absence, the non-submission of work or poor performance.

The purpose of mitigating circumstances is to offer eligible students the opportunity to be assessed or reassessed on equal terms with other students. Students who believe that their assessed performance was affected by such circumstances should apply for mitigating circumstances using the procedures set out below. Claims for mitigation in respect of poor performance shall not be valid.

It is clearly not possible to list all possible mitigating circumstances due to their individual nature. However, serious medical problems, the death of a close family member, serious ill health or injury to a partner or child will fall into this category. These examples are not intended to be exhaustive. Pre-existing, long-term medical conditions should be made known to the Head of Academic Administration at the earliest opportunity, and medical certification should be provided to cover the coursework deadline.

Serious Adverse Circumstances will not be granted for minor illness (such as colds, sore throat etc. and the student should not approach his/her doctor for certification), everyday stress and strain (such as building work in the home), financial pressures, work pressures, emotional pressure caused by study, matters of personal preference that clash with the Academy timetable, last minute computer failure and other similar circumstances.

Decisions on short-term (up to five working days) mitigating circumstances will be taken by the Academic Head. Requests for longer than five working days will be considered by the Principal. The Principal will act in accordance with the Academy regulations when making judgements on students who have claimed serious mitigating circumstances for any part of the unit due to illness or other causes.

If you submit your assignment, you declare that you are ‘fit to sit’. This means that you cannot, at a later date, claim that your performance was seriously affected by adverse circumstances.

A student may submit a claim seeking mitigation for a particular item of assessed work on two occasions only. A mark/ grade of zero will then be awarded for that item of assessed work, if it is not attempted at the next opportunity there will be no further opportunity for reassessment.

Students who wish to claim mitigation must submit an Exceptional/ Mitigating Circumstances form to the Administration Department. It is the student’s responsibility to complete and submit the form. In exceptional circumstances, the student may nominate another person to submit the form on her/ his behalf. Members of the Academy’s staff may not initiate mitigation claims.

Relevant supporting evidence must be attached to the form. This evidence must be appropriate and independent. Any medical certification must be dated and cover the relevant dates. All supporting evidence must be written in English.

Academic and Advisory Committee action

Having received a claim for mitigating circumstances, the Academic and Advisory Committee may (1) deny the claim and allow the current mark(s) to stand; or (2) support the claim and recommend one of the following actions:

If it supports the claim, then it will make one of the following recommendations:

- to award a mark/grade on the basis of works (complete or partially completed) prepared in fulfilment of module requirements. Credit awarded in this way will be recorded as a Mitigated Pass (MP) on the grade sheet.
- to seek to assess and mark/grade the student's learning through whatever means they believe is appropriate. This may include additional assessment tasks or the review of previous work.
- to allow an examination to be taken or coursework to be resubmitted to a new timetable. The marks/grades gained from this will be recorded as if taken for the first time. Where the assessment was itself a second attempt, the process of retrieval will also be allowed to be retaken without further penalty. Where this is the outcome, the Academic and Advisory Committee grade sheet will be marked as Deferred (D).
- to recommend that credit is awarded but no mark/grade is entered. In this case, the aggregated end-of-level mark/grade will be based on a corresponding number of fewer modules. A maximum total of 30 credits in any single level of a programme, may be awarded in this way.

The Academic and Advisory Committee retains the right to exercise discretion in determining the validity of any claim and any actions or compensation that may be offered as a result of the claim. Where there is enough evidence of the student's achievement (or it is subsequently obtained), the Academic and Advisory Committee may recommend that the student is offered an appropriate award.

Right of appeal to an awarding organisation

If an appeal is rejected, the appellant is informed at the time s/he is given the decision that s/he has the right to request the awarding organisation or Office of the Independent Adjudicator (OIA) to review the Academy's implementation of its assessment appeals process. In such circumstances, the appellant is provided with the address and contact name to which to send her/his request.

Awarding bodies will normally only consider appeals when they are satisfied that an institution's internal appeal processes have been exhausted: this places the onus upon all those involved with the Academy Appeals procedure to ensure that everything is formally recorded in a systematic and comprehensive manner.

How to complain

We welcome your comments and suggestions about the Academy's policies or services, either academic or non-academic (only in areas that are fully within the control of the Academy). You can do so informally by:

- at the point where the service is provided,
- by contacting the person in charge of the relevant area (your Lecturer, the Academic Head or Chief Executive etc.)
- raising the matter with your Student Representative
- telling any other member of staff such as the Welfare Officer

No student will be disadvantaged due to having raised a complaint, but the Academy also expects that students will not make frivolous, vexatious, or malicious complaints.

Where the issues raised affect a number of students, those students can submit a complaint or academic appeal as a 'group complaint' or a 'group appeal'. In such circumstances, the Academy can ask the group to nominate one student to act as group representative.

What is a complaint?

For the purpose of this framework, a student complaint is defined as *“An expression of dissatisfaction by one or more students about a provider’s action or lack of action, or about the standard of service provided by or on behalf of the Academy.”*

The Complaints Policy should not be used:

- to request a review of an academic progress decision, such as an assessment mark, a degree classification, fitness to practice, research methodology or course content/outcomes, a progression decision such as failing a module or the year, or the calculation of your degree. These matters should be raised through the DAL Procedure 2.4 Appeals.
- for complaints of staff misconduct (which will be considered under the Policy for investigating student complaints of Procedure 2.1 Academy Staff Misconduct).
- for matters relating to Student Loan Company.

The Complaints Policy can be used for:

- the quality and standards of a service provided by the Academy, including learning and teaching provision, advice, resources and facilities,
- the admissions process or its outcomes,
- failure to apply an administrative or academic process,
- concerns about the impact of an Academy policy, even if it has been correctly applied,
- failure by the Academy to meet obligations including those outlined in student handbooks,
- misleading or incorrect information in prospectuses or promotional material and other information provided by the Academy,
- poor quality of facilities,

A decision about assessment, will normally involve academic judgment. However, the following areas do not involve academic judgment and also can be considered under Complaints procedure:

- decisions about the fairness of related assessment procedures, whether they have been correctly interpreted,
- how the Academy has communicated with the student,
- whether an opinion has been expressed outside the area of an academic's competence,
- the way the evidence has been considered whether there is evidence of bias or maladministration.

For academic matters, responsibility for dealing with complaints about academic matters lies with the Academic Head. If students have any comments or complaints relating to supervision, these should be addressed either to the lecturer concerned or Head of Academic Administration or to the Academic Head. If they wish to make comments about lectures, seminars, etc, organized by curriculum teams, they should raise the issue with the Academic Head.

Time Scales

An initial response to any complaint can be expected within two (2) weeks of its receipt, and a full and considered response to a complaint should be completed within a further two (2) weeks at most, with any subsequent remedy implemented with minimum delay in line with OIA and UK Quality Code Guidelines. If complainants are not consent with the outcome, they can proceed to the next stage by submitting for a further complaint within two (2) weeks after they receive the Outcome Form.

Former students who have left the Academy also have the right to complain although they may only be able to raise issues of complaint or academic appeal within an explicitly defined period of 12 months after the end of their studies.

Confidentiality

Every attempt related to Complaints Procedure will be made to maintain the confidentiality of a complainant. However, where a complaint is of a personal nature against an individual, it is likely that the complainant's identity would have to be revealed at some stage in all, but the most exceptional cases in order to allow a fair investigation. For example, where a complaint is made against an individual, that person has the right to know who is complaining against them and what the nature of

the complaint is. The Academy will endeavour to inform of a complainant of the extent to which their identity is likely to be revealed at each stage of the procedure.

Throughout the formal complaints procedure, a written record of the complaint will be taken and made available on request to anyone involved in the matter (subject to the protocols on confidentiality noted above). At Stage 1, the written record will be maintained by the Head of Academic Administration; at Stage 2 it will be the responsibility of the Academic Head to keep a written record and to send a copy to the CEO / Principal. Please refer to the DAL Procedure 1.7 Data Protection.

The Complaints Procedure Stages

Below is provided a summary of the complaints procedure. **For further details, please refer to DAL Procedure 2.5 Complaints.**

Informal Complaint Procedure (*Early Resolution*)

The Academy expects complaints to be dealt with informally in the first instance (ideally within 2 weeks) quickly and effectively in order to address concerns immediately and locally before they escalate to formal complaints by providing, where appropriate, information of what will be done to prevent a similar situation happening again, (alternative) solution(s) or an apology.

Formal Complaints Procedure

Stage One (*Initial Submission*)

If the matter cannot be resolved satisfactorily via Informal Complaint Stage, the complaint should be made in writing to the Head of Academic Administration by completing Formal Complaint Submission Form - Stage 1 within two weeks after the student receives the Informal Complaint Outcome Form, in which full details of the complaint and any relevant documentation should be provided.

The Head of Academic Administration will acknowledge receipt, but before the Formal Complaint Process is initiated, s/he might reject the complaint, might lead the student to another procedure depending on the criteria and conditions or otherwise, starts the process as soon as possible. In addition, complaints requiring immediate action as listed below are dealt with swiftly.

- involving a threat of serious harm,
- which has detrimental consequences for the student's mental health or where the student displays significant distress,
- relating to disability support issues of serious and repeated service failure and/or significant delay,
- of a highly sensitive nature.

In the case of a racist, discriminative, abusive or extremist behaviour, a different procedure is followed. For further details about handling such a very sensitive issue, please refer to DAL Procedure 6.16 Prevent Duty (Racist, Discriminatory, Abusive and Extremist Behaviour).

Based on their investigation, the Head of Academic Administration or a member of academic staff / the investigator will produce a report by completing a Formal Complaint Outcome Form - Stage 1 which along with other details outlines:

- the actions taken,
- the outcome / decision, and the reasons for the decision taken,
- how and when it will implement any remedy,
- the student's rights to take the complaint to Stage 2 (Internal Review)
- where and how to access support.

Stage Two (*Internal Review*)

It is hoped that very few complaints would remain unresolved after Stage 1. However, the student can request a review, if

- the complaint remains unresolved,
- the student is dissatisfied with the outcome,
- new material evidence which the student was unable, for valid reasons, to provide earlier in the process is now available,

The request for review should be made in writing to the Academic Head within 2 weeks by completing Formal Complaint Internal Review Request Form - Stage 2, in which full background details of the complaint until then and any relevant documentation should be provided.

The Academic Head will allocate the request for review to a designated member of staff or (where appropriate) a panel of investigators not involved at any previous stage to undertake an independent assessment of the case and come to a conclusion on the matter.

If the student is required to attend in person as part of the investigation into a complaint, they are entitled to be accompanied at any stage by a member of the Academy: this could be a lecturer or other senior member, or a student including a class representative or Academy Student Representative.

Based on their investigation, the Academic Head and the investigator(s) will produce a report by completing Formal Complaint Internal Review Outcome Form - Stage 2. The student(s) is also informed that if they are not satisfied with the result and want to appeal to the relevant body, they can ask for a Completion of Procedures Letter (COP) within 2 weeks following the issue date of the form, and the letter must be delivered to the student within 28 days.

Stage 3 (External Review)

The Academy rules provide for an independent review of appeals and complaints through the independent ombudsman service OIA or other routes, such as BC, BAC and Pearson since the Academy is also a member of these awarding bodies. If the complainant remains dissatisfied, having followed all the appropriate appeal or complaints procedures, it may be open to them ultimately to refer the matter to the related awarding body and/or OIA. The complaint should be submitted to the OIA within 12 months of the date of the Completion of Procedures Letter.

The students are fully informed during their induction process that they are able to raise complaints through Office for the Independent Adjudicator (OIA), Pearson, British Accreditation Council (BAC) and British Council (BC).
